The Kidney Anatomical Chart - Anatomy Models and ...

The kidneys are bilateral bean-shaped organs, reddish-brown in colour and located in the posterior abdomen. Their main function is to filter and excrete waste products from the blood. They are also responsible for water and electrolyte balance in the body. Metabolic waste and excess electrolytes are excreted by the kidneys to form urine.

...

The kidneys are two reddish-brown bean-shaped organs found in vertebrates. They are located on the left and right in the retroperitoneal space, and in adult humans are about 12 centimetres in length. They receive blood from the paired renal arteries; blood exits into the paired renal veins. Each kidney is attached to a ureter, a tube that carries excreted urine to the bladder. The nephron is the structural and functional unit of the kidney. Each human adult kidney contains around 1 million nephr

Kidney - Wikipedia

The Kidney Anatomical Chart 1st Edition by Kimberly A. Martens (Illustrator) 4.1 out of 5 stars 6 ratings. ISBN-13: 978-1587791710. ISBN-10: 1587791714. Why is ISBN important? ISBN. This bar-code number lets you verify that you're getting exactly the right version or edition of a book.
