This book is about how language is used in the context of schooling. It demonstrates that the variety of English expected at school differs from the interactional language that students use for social purposes outside of school, and provides a linguistic analysis of the challenges of the school curriculum, particularly for non-native speakers of English, speakers of non-standard dialects, and ...

The Language of Schooling: A Functional Linguistics ...

The Language of Schooling: A Functional Linguistics Perspective builds on current sociolinguistic and discourse-analytic studies of language in school, but adds a new dimension--the framework of functional linguistic analysis. This framework focuses not just on the structure of words and sentences, but on how texts are constructed--how particular grammatical choices create meanings in the ...
