A company is considered to be insolvent under English law if it is unable to pay its debts. There are two tests for corporate insolvency: the cash-flow test: is the company currently, or will it in the future, be unable to pay its debts as and when they fall due for payment?

Corporate insolvency: the basics - Pinsent Masons

In the past fifteen years corporate insolvency law in the UK has been radically reshaped mainly by means of the Enterprise Act. As a result corporate rescue has become increasingly a fashionable topic, which has long been a subject of global interest. It has been commanding very significant legislative, academic and professional attention.

Corporate Insolvency Law in the UK

The inability to pay debts forms one of the grounds on which a court may order a company to be put into liquidation. A court must also be satisfied that a company is or is likely to become unable to pay its debts before ordering a company to be placed into administration. These are the two principal corporate insolvency processes in England and Wales.

Insolvency (corporate) | Practical Law

A company is insolvent if its assets are insufficient to discharge its debts and liabilities. Often, an insolvent company: Is unable to pay its debts as they fall due (cash-flow insolvency). Has liabilities in excess of its assets (balance-sheet insolvency). See Practice note, How to identify a company in financial difficulty: When is a company insolvent?.
