Abstract and Keywords. This chapter deals with nominal derivation (nominalization), that is the process that derives a noun from another word category, normally a verb or an adjective. The chapter focuses on participant nominalizations, deverbal nominalizations that are ambiguous between event and result/object readings, and de-adjectival nominalizations that are ambiguous between a state and a quality reading.

The Oxford Handbook of Derivational Morphology : Rochelle ...

The Oxford Handbook of the History of English takes stock of recent advances in the study of the history of English, broadening and deepening the understanding of the field. It seeks to suggest ways to rethink the relationship of English's past with its present, and make transparent the variety of conditions and processes that have been instrumental in shaping that history.
