Federalism, mode of political organization that unites separate states or other polities within an overarching political system in a way that allows each to maintain its own integrity. Federal systems do this by requiring that basic policies be made and implemented through negotiation in some form, so that all the members can share in making and executing decisions.

American federalism allows different responses to policy challenges, and the nation's response to the Covid-19 pandemic is no exception. When looking at any sort of crisis, the chief executive of a state or municipality is often the leader in responding given their unilateral authority to act quickly (often via executive orders).

Federalism is a system of government in which a written constitution divides power between a central government and regional or sub-divisional governments. Both types of government act directly upon the people through their officials and laws. Both types of government are supreme within their proper sphere of authority.

Ethnic federalism is a federal system of national government in which the federated units are defined according to ethnicity. Related terms are multi-ethnic federalism and ethnofederalism. This type of federation is identified above all with the governance of Meles Zenawi from the 1990s in Ethiopia, where it has sometimes been known as Zenawism. Meles Zenawi and his government adopted ethnic federalism to establish the equality of all ethnic groups in present day Ethiopia. Features of ethnic fed
