Why supplements are a better source of 10-DHA than fresh Royal Jelly. Perhaps the most important bioactive substance in Royal Jelly is the fatty acid 10-HDA [in full: 10-hydroxy-2-decenoic acid]. 10-DHA causes Royal Jelly's prohormonal and anti-aging effects. According to a 2007 Chinese study, freeze-dried Royal Jelly powder supplements are an excellent source of 10-HDA.

Why supplements are a better source of 10-DHA than fresh ...

Royal jelly has been used in alternative medicine as a possibly effective aid in treating menopausal symptoms. Royal jelly may have been combined with other plants or extracts in a specific preparation to treat this condition. Royal jelly has also been used to treat hay fever. However, research has shown that royal jelly may not be effective in treating this condition.
