Review: The Star Dwellers by David Estes | Nickle Love

The Star Dwellers continues revealing secrets about the rebellion and war as well as the unique romantic relationship developing between Tristan and Adele. This second book in the series, like most seconds, was not quite as exciting as the first book, but I loved it just the same! It had all of the great elements I saw in the first book and continued the story I fell in love with in Moon Dwellers. David Estes has a way with dialogue and describing action and setting the scene.
