The Upcycle is the eagerly awaited follow-up to Cradle to Cradle, one of the most consequential ecological manifestoes of our time. Now, drawing on the green living lessons gained from 10 years of putting the Cradle to Cradle concept into practice with businesses, governments, and ordinary people, William McDonough and Michael Braungart envision the next step in the solution to our ecological crisis: We don't just use or reuse and recycle resources with greater effectiveness, we actually ...

The Upcycle: Beyond Sustainability—Designing for ...

In his new book, *The Upcycle: Beyond Sustainability* — Designing for Abundance (North Point Press), he says there are now ways to make buildings capture more solar power than they use so the surplus goes into the grid or to make water coming out of factories cleaner than when it arrived. "I'm most optimistic on the business side, because business is fast," he says.

The Upcycle: Beyond Sustainability—Designing for Abundance ...

In *The Upcycle: Beyond Sustainability—Designing for Abundance*, the author's argue that companies can solve all of our environmental woes through better design of their products. The book somewhat builds upon their earlier publication *Cradle to Cradle*, though it's more a reiteration of the same principles presented in this earlier work.
