1) Check the router is switched on (power light green). 2) Use a paperclip, pen or pointed object to press into the reset pin hole on the back of the router. 3) Keep the button pressed in for at least 7 sec- onds. When the powerlight goes red, release the button and wait until the power light turns green again.

Setting Up Your Setting Up Your Thomson TG585v7 ...  
I've used a number of routers which I manually configured. Currently I'm using an old BT Voyager 2091 which is a bit shaky and I'd like to replace. My Mother in law moved to BT around six months ago, her Thomson TG585 v7 was working fine up until her transfer and I thought there would be standard PlusNet configuration within and wouldn't require any setup if used with my connection.

Fixed: Thomson TG585 v7 login & configuration - Plusnet ...  
There should only be a single user account on the Thomson routers we send out, depending on your firmware version the username will either be 'admin' or 'Administrator' and the password will either be blank or will be the serial number of the router, usually starting CP. If all else fails then as previously advised you can factory reset the router.

Thomson - TG585 v7 (Thomson Firmware) Port Forwarding Guide For automatic port forwarding try Simple Port Forwarding. Step 1. This router/modem forwards based on computer name and not ip address. So there is no need to set a static ip. Some routers & modems work best with port forwarding if you have a static local IP.
