Tree Climbing (Arborist) Knots Arborists need knots to secure their climbing ropes to carabiners, arborist rigging pulleys and other equipment. The tying method should be perfect to ensure a hassle-free, quick and safe climb.

~~Rock and Tree Climbing Knots: Basic Guide with List~~

What is tree-climbing? Simply put, it ' s climbing and moving around a tree using ropes and harnesses. It all started back in the 19th Century when tree surgeons in the US started climbing trees as part of their day-to-day work. But it wasn ' t until the 1980s that it stopped being just a practical necessity and became a recreational pleasure.

~~A beginner's guide to tree climbing—OAG~~

With an instructor ratio of 4:1 there is plenty of time for individual attention. Tree climbing training will be supervised 1:1 initially. When not climbing you will be able to rest – watch and pick up useful tips, practise knots and balance. The fee is £150 per person or £350 for a group of up to 4 people for the day. Vouchers are available.
