We spoke to a number of the UK 's leading clinical research nurses to find out more about what 's involved in working in clinical trials. The NIHR defines a clinical trial as a research project involving ' two or more treatments in patients with a particular condition, or at risk of a condition, to help generate high quality evidence about which is the more effective treatment or ...

Clinical trials: what does a research nurse do? | RCNi

The Work is designed to be comprised of 175 chapters and approximately 2500 pages. The Work will be oriented like many of our SpringerReference Handbooks, presenting detailed and comprehensive expository chapters on broad subjects. The Editors are major figures in the field of clinical trials, and both have written textbooks on the topic.

practice poses some typical challenges, like difficulties with study logistics and patient recruitment in a large number of small trial sites . The lack of researcher-initiated trials has also been pointed out in the European Research Agenda for General Practice . Irrespective of their commercial interests, this research agenda underlines that drugs mainly targeting primary care should be appropriately tested in primary care settings.
