Trucking Spreadsheet | Spreadsheets

Fixed costs are expenses that your company incurs whether your trucks are hauling a load or are in the parking lot. Fixed costs include expenses like insurance, property leases, permits and other services. In the chart below, the fictional company Chuck's Trucks Inc. calculates fixed costs by the mile for the month of August. The chart divides each fixed cost by the 10,000 miles that Chuck's Trucks drove that month:

How to Calculate Cost per Mile for Your Trucking Company

Trucking Profit And Loss Spreadsheet

The owner operator truck cost per mile calculator feeds relevant calculations to the truckers profit and loss spreadsheet which is the final tool that should tell the Owner Operator whether a load is profitable and helps the Owner Operator make sound load decisions before running unacceptable loads.

Owner Operator Truck Cost Per Mile Calculator

The final \$0.69 per mile cost for 130,000 miles, represents a vehicle cost of \$89,000 and a "Driver Income" of \$38,422. This decrease of cost per mile with each additional mile is a characteristic small business truckers share with the big fleets; greater equipment utilization translates into lower per mile costs and the potential for increased net revenues and profits.

Cost Per Mile - OOIDA

To calculate the "cost per mile," divide the cost by the number of miles you drove that month. For example, "fixed costs per mile" is calculated by dividing \$2515 (fixed costs) by 8,400 (miles), which gives us \$0.30 per mile. Using the same method, we calculate variable costs to be \$0.70.

Calculate Your Cost Per Mile | Truckers & Owner-Operators

In order to operate profitably trucking companies must first know their "all-in" cost-per-mile (CPM). Knowing this cost, is the only way to set a freight rate that will generate enough revenue to pay costs and generate a profit. Enter your trucking company's costs in each of the following fields to calculate CPM.
