Understanding the Australian Health Care System - 4th Edition

Health care in Australia has a highly developed structure, though because of the nations' vast size, services are not evenly distributed geographically. Health care is delivered in Australia by both government and private companies which are often covered by Medicare. Health care in Australia is largely funded by the government at national, state and local governmental levels, as well as by ...

Australian Health Care - YouTube

Australia ' s health system is a multifaceted web of public and private providers, settings, participants and supporting mechanisms. In 2013 – 14, health spending was estimated at \$155 billion, of which \$145 billion was recurrent health expenditure (AIHW 2015b) (see ' Chapter 2.2 How much does Australia spend on health care? ').

Australia ' s health system

The text provides an overview of the Australian Health Care System at a level suitable for 1st year undergraduate students. It describes the ' architecture ' of the system and its key components (public hospital sector, private hospital and health insurance, GPs and primary care, community health, public health), some of the things that shape the system and introduces key concepts that ...
