The VB1 has significant historical value as it is the last of the 'wide frames' Vespa ever produced (with exception of the 65 150) before the change made in the production line where scooters were made 2 half frames welded together. And Finally... the finished product. Posted on August 10, 2015 by admin.

The Vespa VB1 was one of the shortest scooter production runs in the late 1950's when, after the unveiling in 1957, it got superseded by the newer style chassis Vespa VNB1 model in 1958. Here we have one beautifully restored VB1 undertaken by ourselves, the scooter before restoration was in fantastic condition very solid and complete.

## *Retrospective Scooters*

It became a sales success after it was officially debuted at the Milan Fair of 1946 with a 96cc engine which drove the rear wheel via a 3-speed manual transmission. The Vespa 150 (VB1) The VB was the successor to the VL "Struzzo" in the 150 range and the last wideframe Piaggio model (with the exception of the GS).

## *Crossley & Webb - Online / Auctions*
