## **Veterinary Parasitology: Reference Manual: Foreyt, William ...**

Definition of Parasitology  
1. Protozoa • Eukaryote,  
single-celled organisms •  
Most protozoa are not  
pathogenic nor require a  
host • A single protozoan  
organism is too small to  
cause pathology, thus  
asexual multiplication  
provides the mechanism for  
pathogenic protozoan  
populations.
