In May 1920 a new British Excelsior lightweight model was announced, this being the first motorcycle to show the new Villiers engine using the flywheel-magneto instead of a separate magneto. In September 1922 Villiers announced the details of their new 1923 engine range, which included 147 cc, 250 cc and 343 cc engines. These engines featured a radial-finned cylinder head, with both the inlet and exhaust port being at the front of the engine, and they all had the
