The patented open side of the LT40 hydraulic sawhead allows for minimal leveling during set-up, easy off-bearing with the trapezoid shaped bed, and sawing of odd shaped logs. Operation Loaded and turned hydraulically with loading arms and a steel claw turner, logs are secured onto the bed by four side supports (two hydraulically controlled) and a heavy-duty hydraulic log clamp.

The LT70 Sawmill Series is designed to meet the demands of the modern high production sawmilling enterprise, while incorporating thin-kerf blade technology to increase profits.. The LT70 comes standard with wider crowned cast iron wheels in order to run 50 mm blades. The larger blade wheels and 50 mm blades can be ordered only for the regular head width.
